EDUCATION

B N College of Engineering and Technology

B.Tech(CSE) (Passed)

2021 – 2025

Lucknow, India

Professional Summary

Aspiring Full-Stack / MERN Stack Developer with hands-on experience in building and deploying web applications. Skilled in Java, JavaScript, React, Node.js, Express.js, and MongoDB, with projects like Vehiclix and Weathery. Strong foundation in OOP, DBMS, Operating Systems, and Networks, passionate about developing scalable, user-focused solutions.

PROJECTS

Vehiclix [🔗](#) | Vehicle Rental WebApp

2025

- Built a complete vehicle renting website where people can rent cars or bikes, or put up their own vehicles for rent. Used MongoDB, Node.js, Express.js, EJS, and Bootstrap to handle both the backend and frontend.
- Added a secure login and signup system using Passport.js to manage user accounts and sessions.
- Used Mapbox API to show vehicle locations on a map, making it easier to find nearby options.
- Added search and filter options so visitors can easily find the type of vehicle they're looking for. Also included features like booking, cancelling, leaving reviews, and an admin panel to manage everything.

Zerodha Clone [🔗](#) | Trading webApp

2025

- Developed a full-stack clone of Zerodha with React, Tailwind, Node.js, Express.js, and MongoDB, deployed on Vercel/Render.
- Implemented JWT authentication, bcrypt password security, and a modular architecture with separate frontend, backend, and dashboard apps.
- Built a user dashboard simulating brokerage workflows, with role-based access support prepared for admin features.

Weathery | Weather App

2024

- Built with React and OpenWeatherMap API: Integrated real-time weather data, forecasts, geolocation, and error handling using React Hooks (useState, useEffect).
- Dynamic UI with Tailwind CSS: Designed responsive, weather-themed interfaces.

TECHNICAL SKILLS

Languages: Java, JavaScript, HTML, CSS, SQL

Developer Tools: Git, GitHub, VS Code

Database: MongoDB

Frameworks Libraries: GitHub, React.js, Node.js, Express.js, Tailwind CSS

Training

Sypher Web

07 2024 – 07 2024

Trainee

Lucknow, India

- Completed hands-on training focused on the MERN stack (MongoDB, Express.js, React.js, Node.js).
- Gained foundational experience in building RESTful APIs and full-stack application workflows. Developed a basic real-time chat application to understand backend-frontend integration using APIs.

EXTRACURRICULAR

BN College of Engineering and Technology

2023 – 2024

Volunteer

Lucknow

- Volunteered during the annual college fest, organizing aptitude and coding competitions.
- Acted as an umpire in an intra-college cricket match, demonstrating fairness, decision-making, and leadership under pressure.

CERTIFICATES/COURSE

- Certificate of completion of the Delta course (Full Stack Web Development) at Apna College.
- Certificate in SQL Basic to Advance by Greekster
